OBJECTIVE

I am looking for a developer position where I can leverage my expertise in Software Engineering, focusing on backend development with ASP.NET Core, C#, and SQL Server, complemented by experience in Angular. I have a strong background in version control, CI/CD pipelines using Azure DevOps, automated testing, and agile methodologies, with hands-on experience in projects within the banking sector.

WORK EXPERIENCE

CAIXA - Caixa Econômica Federal

Software Engineering Intern

July 2024 - Present

- Development of APIs in C# ASP.NET Core for CAIXA's SIMOV (Properties for Sale).
- Implementation of frontend features in Angular, integrating with the backend.
- Participation in the MCMV RS State Reconstruction project, contributing to system evolution.
- Application of best practices in software development and architecture.
- Consumption and exposure of APIs for system communication.
- Analysis and bug fixing to ensure application stability.
- Writing and maintaining unit tests to ensure code quality.

CONFEA - Federal Council of Engineering and Agronomy

Software Engineering Intern

July 2022 - June 2024

- Development using C#, .NET Framework, ASP.NET, JavaScript, and SQL Server.
- Participation in the full development lifecycle, from conception to system maintenance.
- Contribution to the development and documentation of applications such as the regulatory system, professionals API, and voting system for the 11th National Congress of Professionals.

EDUCATION

UnB - University of Brasília

Bachelor's Degree in Software Engineering

In Progress

SKILLS AND TECHNOLOGIES

Languages:

- Advanced English, Native Portuguese

Backend:

- ASP.NET Core, C#, .NET Framework, Microsoft SQL Server, Azure DevOps, RESTful APIs, xUnit, Entity Framework, Python, Flask, GraphQL, Node.js

Frontend:

- Angular, JavaScript, TypeScript, HTML, CSS, Bootstrap, REST API consumption, Node.js

Methodologies and Best Practices:

- Agile (Scrum), Clean Architecture, DDD, SOLID, Design Patterns, REST APIs

Tools and Others:

- GIT, Docker, CI/CD, Expo GO, Postman, Visual Studio 2022, Swagger, Rider
